Dear Parent

BIG

Battery Hunt!

At Sidney stringer Primary school we are taking part in a nationwide campaign to help inspire young people to recycle more batteries. We are hoping all the children will get involved and start collecting straight away.

Your Big Battery Hunt recycling box is enclosed with this letter so your child can contribute to our school recycling total, there will be prizes for the children that collect the most!

Just bring your box in to school when it is full and we will record how many batteries your child has collected. The box can then be taken back home and filled again!

There will soon be a large collection box in school to store the batteries in ready to be recycled so the children can see how many we have collected as a school.

Maybe you could get your whole community involved by visiting your local library or community groups, or perhaps create a poster encouraging people to recycle their batteries too - we would love to hear about it!

Thank you for taking part in the Big Battery Hunt. Together we hope to make a real difference to the planet by inspiring our pupils to recycle more batteries.

Mrs Reeve and the Eco Council
