- That all children with Special Educational Needs have access to the curriculum to which they are entitled.
- That every teacher is an effective teacher of children with Special Educational Needs.
- To acknowledge the valuable contributions made by children and their parents.

2. Principles

- We acknowledge current legislation and recognise that a significant percentage of our children may have a special need related to their Academic Progress, Emotional or Behavioural Difficulties, Sensory Impairments or Physical Disabilities.
- All children with SEN should have their needs met.
- Children with SEN should be offered full access to a broad, balanced and relevant education.
- The views of children with SEN should be sought and their views taken into account.
- Parents have a vital role to play in supporting their child's education

3. Objectives

- To implement Support in accordance with the SEN code of practice.
- To request a statutory assessment when a child demonstrates significant cause for concern.
- To identify at the earliest opportunity using agreed school criteria those children with Special Educational Needs.

Sidney Stringer Primary SEN Policy

- To provide a one page profile for any child requiring support, this is additional to or different from the differentiated curriculum plan.
- To consult parents, the child and external agencies where necessary to provide appropriate support.
- To review one page profiles with parents as appropriate.
- To monitor success of the policy by analysing any data collected.

Pupils' needs should be identified at the earliest possible stage by:
